Since our inception in 2010, we have been strategically focusing on mobile games targeting female players to capture the significant growth potential in both the mobile game industry and the female-oriented game market. We consecutively and successfully launched core products such as the Legend of Empress (熹妃傳), the Royal Chaos (熹妃Q傳), the Fate of the Empress (浮生為卿歌), the Promise of Lingyun (凌雲諾), A Story of Lala's: Rising Star (杜拉拉升職記) and others, which are well received among users.

While consolidating the leading position in the domestic female market, we are also exploring overseas markets actively. We will continue to adhere to the corporate mission of "Let Culture Create Values", and are committed to spreading excellent traditional Chinese culture to a wider group and region, so as to build a carrier for global outstanding cultural exchanges, promote cultural inheritance and heritage, constantly explore cultural values, and shape a more profound influence of culture.

BUSINESS REVIEW

For the six months ended 30 June 2023, the total revenue of the Group was approximately RMB620.3 million, representing a decrease of 24.9% as compared to the corresponding period in 2022. Net loss for the period was approximately RMB80.9 million, as compared to the net loss for the period of approximately RMB73.0 million for the corresponding period in 2022. Adjusted net loss for the period was approximately RMB77.9 million, as compared to the adjusted net loss for the period of approximately RMB58.5 million for the corresponding period in 2022.

The decline in the Group's results was mainly due to the decrease in revenue for the period as compared to the corresponding period in 2022, which is mainly attributable to a normal decrease in revenue from our existing games in line with their lifecycle extension. Furthermore, it is expected that tax losses will unlikely be utilized before their expiry amidst the uncertain fluctuation in the Company's results, leading to an impairment of the deferred tax assets of approximately RMB60 million.

Management Discussion and Analysis

The Group continues to increase its investment in research and development to accelerate breakthroughs in cutting-edge technologies such as AIGC, which will be integrated into aesthetic production, plot planning, game interaction, copywriting, production of placement materials, etc. Utilization of such new technology will help develop smarter development tools, editors, data models, thereby fully enhancing our efficiency at lower costs. On 27 February 2023, the Group announced that it is one of the first eco-partners of Baidu's "ERNIE Bot" (文心一言), which will help to improve the NPC interaction function in the game, and increase in-game flexibility and enhance the emotional connection between players. In addition, the Group has been actively exploring various innovative AI applications at home and abroad, and attempting to integrate AI functions into gameplay, with certain new features entering the testing period.

To promote our stable and sustainable development as part of our proactive commitments to responding to the current market conditions, the Group will continue to strengthen cost control by enhancing our efficiency at lower costs. In terms of staffing, we will ensure effective staffing optimization and efficient control of employee size. In terms of project management, we will refine our management by bolstering the cost monitoring, analysis, assessment and decision-making processes, while exercising strict cost control and effective lifecycle planning, including a higher assessment standard for new projects. In terms of marketing and customer operation, we will redouble our efforts to identify new customers and new channels, while ensuring targeted services for our potential players and long-term retention of our existing users.

Fate of the Empress (浮生為卿歌)

The Fate of the Empress (浮生為卿歌) was officially launched on 31 December 2019, being the flagship female-oriented product of the Group in relation to ancient Chinese culture. There was innovative interaction among users, scenes and objects in the game. The real-time weather algorithm system has enabled the light-and-shadow effect of the ever-changing weather such as rainy, snowy, sunny, cloudy, daytime and nighttime. The traditional Chinese architectural style has been integrated into the landscape, fully demonstrating the oriental aesthetics taste. The fashion designed for game characters draws on the typical apparel elements of all the dynasties and takes into account the age, identity, social status and personalities of the characters, aiming at integrating the traditional culture to restore the image of Chinese ancient characters which allows players to constantly experience the details of the Chinese culture.

We sophisticatedly operate the Fate of the Empress (浮生為卿歌) under the long- lifecycle strategy, which allows us to maintain high frequent version updates and optimization, while continuing to explore game scene maps, upload new maps, plots, game rules, fashion, pets, pet mounts, and other contents. For instance, we introduced a cute and good-natured pet mount bear (布偶熊) with a variety of adorable expressions, which will provide our players with a sense of security when players are carried by the pet mount bear like a princess. Inspired by the afterglow of the heavenly palace (天闕之霞), in combination with the artistic conception by the poet Tao Yuanming where "Mountain air is pleasant day and night, birds on the wing would gather in pairs as they home return." (山氣日夕佳 · 飛鳥相與還), our designers designed a new aesthetic Chinese-style fashion "Scarlet Embroidered Gown" (錦繡赤霞). In the first half of 2023, the Fate of the Empress (浮生為卿歌) won the 39th place in the best-selling iOS game list in Mainland China.

Management Discussion and Analysis

Promise of Lingyun (凌雲諾)

The Promise of Lingyun (凌雲諾) was officially launched on 20 January 2022, being a glamorous Chinese-style social mobile game with modern art. It blends classical aspects with modern art to demonstrate the fascinating ancient Chinese culture. With the traditional and innovative new style of Chinese drawing technique, we have created for the game a variety of Chinese-styled features such as glamorous costume, manor creation and social interaction by means of poetry and painting. Besides, through small fun games such as floral art, drinking games and mahjong-styled games, details of the game are much developed, thereby allowing the players to enjoy the remastered pictures of ancient Chinese lifestyles centuries ago.

In the first half of 2023, we continued with the updates of new game rules, replacement and optimization of apparel tools, and other refined operational activities, so as to delivery gratifying gaming experiences to our players. For instance, in celebration of the Chinese New Year of the Rabbit, we introduced the “Lunar Lord of the Rabbits” (月下卯君), which is a brand-new pet companion based on the Jade Rabbit that symbolizes the moon in traditional Chinese myths. By drawing on the “Major Court Hymns” (大雅) in the poem collection “Classic of Poetry” (詩經), and referencing the local customs and humanities throughout various dynasties, we further launched a new luxurious but elegant fashion “Whisper from Classic of Poetry” (大雅微音). In collaboration with Ms. Ni Wanwen (倪婉文), who is a successor of the intangible cultural heritage Suzhou-style paper cutting (carving) art, the Promise of Lingyun (凌雲諾) created the game event that celebrate both the Chinese New Year and its own market launch, where Ms. Ni presented our gaming audiences the paper-cutting artwork “Shadow Engraved in the Chronicle” (韶光鑄影), which is characterized by the Chinese New Year festivities and based on a new school of fine arts.

A Story of Lala's: Rising Star (杜拉拉升職記)

A Story of Lala's: Rising Star (杜拉拉升職記) is an authentic inspirational female-oriented simulation mobile game. It is adapted from a novel with the same title, and is a role-playing game in the modern female workplace setting. By focusing on the perspective of modern women, the game constructs the core value of “having attitudes even in the workplace” and emphasizes on self-confidence and independence of modern women in metropolitan. The product incorporates the classic storyline of the novel, with glamorous 3D workplace scenes and delicate portrait, combines a variety of game play and practical advice in the workplace, allowing players to experience personal growth and socialisation in a relaxing and enjoyable gaming environment.

A Story of Lala's: Rising Star (杜拉拉升職記) was officially launched on 12 January 2023, and became a recommended game on the Apple App Store in a short time. We enhanced the playability and immersive experiences of the game through new features and technologies such as fashion co-branding, internet celebrities' favorite scenic spots, market grabbing, facial expression motion capture system, smart voice assistant, and AR photo-taking. In the first half of 2023, A Story of Lala's: Rising Star (杜拉拉升職記) reached the highest ranking of 10th among the free iOS games and the highest ranking of 37th among the iOS Best-selling Games in Mainland China.

Management Discussion and Analysis

As a metropolitan lifestyle game characterized by female protagonists, A Story of Lala's: Rising Star (杜拉拉升職記) is committed to fulfilling aesthetic demands of game players for cosmetics and fashion. The hair, face, make-up and facial details of the characters in the game feature a high degree of refinement, including facial parameters for forehead size, the height of nose tips, the inner and outer corners of eyes, and the front, middle and back of the eyelashes, which are freely adjustable. The foundation, eyebrow color, eyeshadow, lipstick, and other different make-up can also flexibly pair with the apparel. Players may select their own options based on personal preferences and styles, and express their own interpretation on aesthetics and personal growth by changing the appearance of the game characters.

In addition, the Legend of Empress (熹妃傳) has been in operation for more than eight years and the Royal Chaos (熹妃Q傳) and the Rise of Queendom (宮廷計手遊) have also been in operation for more than five years, and we maintained stable performance in revenue through frequent game updates and content optimization, constantly providing new momentum to the games. At present, these three mobile games continue to update and optimize its version, content, and activities at least once a month, ensuring the player's gaming experience.

GAME RESERVE

Twist of the Fate (浮生憶玲瓏)

As the Company's strategic flagship product, the Twist of the Fate (浮生憶玲瓏), a new generation of female-oriented traditional Chinese-style mobile game, is built upon the success of its predecessor, Fate of the Empress (浮生為卿歌), which creates a new theme employing next-generation engine effects, artistic production techniques, and innovative gameplay features, aiming to bring players a free, realistic, and multifaceted gameplay experience. The game focuses on creating an "artistic conception (意境)" of Chinese aesthetics, which showcases a poetic landscape of "mountains shrouding in clouds and mist rising from water" and presents players with a Chinese-style visual experience of "full words and endless meanings". Through a series of gameplay modes such as deciphering clues, collecting adventures, and unlocking multiple identities, the game builds an open world with "Love & Mystery" for players.

Besides creating scenes with a design style focused on Chinese aesthetics, the game incorporates elements of the ancient charm of the Jiangnan region, with a vivid sense using rich layers. For instance, in Bianjing City, the "Inner Sanctum" (內舍閣), where elite members are trained, exudes a cool and solemn atmosphere, while the "Misty House" (煙雨樓), where the gentry linger, combines grandeur and elegance. Furthermore, the "Hall of Heaven and Earth" (乾元殿), as the center of power, exudes a sense of grandeur and heritage. The main roads are wide with few shops, while the side streets are bustling with numerous shops and vendors roaming the outskirts. The combination of these scenes makes Bianjing City more authentic. On the other hand, the instance "Path to the Inner Heart" (此心路) adopts a completely different art style, drawing inspiration from traditional Chinese landscape painting. The scene includes steep mountains, raging waterfalls, towering pine and cypress trees, flying egrets in mountain streams, and blooming peach blossoms, which also incorporates Chinese cultural elements, such as Su Shi's "Inscription on the West Forest Wall" (題西林壁), to enhance the sense of immersion, and showcases the beautiful landscape.

In April 2023, the Twist of the Fate (浮生憶玲瓏) conducted a two-week closed beta test called "Spring Beta Test", free of charge, allowing players to try over 500,000 times of Hero Summon and experience nearly 100,000 times of cooking, crafting, musical performance, and dancing. Hundreds of recipes are developed. The makeup process offers extensive customization options, providing a highly realistic makeup experience featuring "thousands of faces", which is highly acclaimed. In July 2023, the Twist of the Fate (浮生憶玲瓏) launched a one-month "Summer Beta Test" with in-game purchase enabled, focusing on the theme of "Love & Mystery". The game was again highly acclaimed among the players, as they progressed through interconnected plotlines by fulfilling the protagonist's potential. Currently, it has a rating of 9.1 points on TapTap and future open beta testing and promotional activities are being planned according to the project's schedule.

Management Discussion and Analysis

Cost of sales

The Group's cost of sales decreased by 18% from approximately RMB253.3 million for the six months ended 30 June 2022 to approximately RMB207.7 million for the six months ended 30 June 2023, which was mainly due to a reduction in game distribution costs resulting from the decrease in the Group's revenue.

Gross profit and gross profit margin

As a result of the above, gross profit decreased by 28% from approximately RMB572.7 million for the six months ended 30 June 2022 to approximately RMB412.6 million for the six months ended 30 June 2023. Gross profit margin decreased from approximately 69.3% for the six months ended 30 June 2022 to approximately 66.5% for the six months ended 30 June 2023, which was mainly due to the decrease in the proportion of revenue from our self-owned channels and the increase in the proportion of revenue from third-party intermodal channels.

Research and development expenses

For the six months ended 30 June 2023, the Group's research and development expenses amounted to approximately RMB160.0 million, representing a decrease of RMB9.1 million or approximately 5.4% from approximately RMB169.1 million for the six months ended 30 June 2022, which was mainly due to the decrease in the share-based remuneration expenses of research and development personnels.

Loss for the period

For the six months ended 30 June 2023, our loss for the period amounted to approximately RMB80.9 million, representing an increase of approximately RMB7.9 million or approximately 10.9% from approximately RMB73.0 million for the six months ended 30 June 2022.

SCOPE OF REVIEW

We conducted our review in accordance with Hong Kong Standard on Review Engagements 2410, Review of interim financial information performed by the independent auditor of the entity, issued by the Hong Kong Institute of Certified Public Accountants. A review of the interim financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Hong Kong Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly we do not express an audit opinion.

CONCLUSION

Based on our review, nothing has come to our attention that causes us to believe that the interim financial report as at 30 June 2023 is not prepared, in all material respects, in accordance with Hong Kong Accounting Standard 34, Interim financial reporting.

The annual financial statements for the year ended 31 December 2022 are available in the Company’s registered office. The auditors have expressed an unqualified opinion on those financial statements in their report dated 21 March 2023.

17 FAIR VALUE MEASUREMENT OF FINANCIAL INSTRUMENTS

(a) Financial assets and liabilities measured at fair value

(i) Fair value hierarchy

The following table presents the fair value of the Group's financial instruments measured at the end of each reporting period on a recurring basis, categorised into the three-level fair value hierarchy as defined in HKFRS 13, *Fair value measurement*. The level into which a fair value measurement is classified is determined with reference to the observability and significance of the inputs used in the valuation technique as follows:

- Level 1 valuations: Fair value measured using only Level 1 inputs i.e. unadjusted quoted prices in active markets for identical assets or liabilities at the measurement date
- Level 2 valuations: Fair value measured using Level 2 inputs i.e. observable inputs which fail to meet Level 1, and not using significant unobservable inputs. Unobservable inputs are inputs for which market data are not available.
- Level 3 valuations: Fair value measured using significant unobservable inputs

The Group has a team headed by the finance manager performing valuations for the financial instruments, including investment in wealth management product which is categorised into Level 3 of the fair value hierarchy. The team reports directly to the chief financial officer. A valuation report with analysis of changes in fair value measurement is prepared by the team at each interim and annual reporting date, and is reviewed and approved by the chief financial officer. Discussion of the valuation process and results with the chief financial officer and the directors is held once a year, to coincide with the reporting dates.

	At 30 June 2023 RMB'000	At 31 December 2022 RMB'000
Level 1 Assets		
Listed equity securities	25,990	16,394
Level 2 Assets		
Unlisted equity investments	28,350	28,350
Investment in LLPs	87,414	86,571
Level 3 Assets		
Investment in wealth management products	140,213	360,000
	281,967	491,315

During the six months ended 30 June 2023, there were no transfers between Level 1 and Level 2, or transfers into or out of Level 3. The Group's policy is to recognise transfers between levels of fair value hierarchy as at the end of the reporting period in which they occur.

17 FAIR VALUE MEASUREMENT OF FINANCIAL INSTRUMENTS (continued)

(a) Financial assets and liabilities measured at fair value (continued)

(ii) Valuation techniques and inputs used in Level 2 fair value measurements

The fair value of Level 2 assets is generally obtained through the use of valuation methodologies with observable market inputs or by reference to the latest round of financing, i.e. the prior transaction price or the third-party pricing information. As the investees are set up for a relative short period and in normal operation without any significant business milestone events during the period, the fair value of the unlisted equity investments and LLP is determined with reference to the latest round of financing price, adjusted by unobservable inputs based on information such as its latest available financial information, where applicable as at 30 June 2023.

(iii) Information about Level 3 fair value measurements

The fair value of the investment in wealth management products issued by banks as at 30 June 2023 is determined using the forecast future cashflow discounted by risk-adjusted discount rate. The valuation requires the directors to make estimates about the expected future cash flows. The directors believe that the estimated fair values resulting from the valuation technique, which are recorded in the consolidated statement of financial position, and the related changes in fair values, which are recorded in profit and loss, are reasonable, and that they were the most appropriate values as at the reporting period end. As at 30 June 2023, the expected investment income ranged from RMB67,000 to RMB210,000, and the risk adjusted discount rate ranged from 1.0% to 3.2%. The fair value measurement is positively correlated to the expected investment income and negatively correlated to the risk adjusted discount rate.

The movements during the period in the balance of these Level 3 fair value measurements are as follows:

	2023 RMB'000	2022 RMB'000
Investment in wealth management products		
At 1 January	360,000	278,000
Payment for purchases	280,000	295,000
Realised gain from investment recognised in "other income" in the consolidated statement of profit or loss	424	2,523
Proceeds upon maturity	(501,914)	(380,523)
Changes in fair value of financial assets measured at fair value through profit or loss	1,703	–
At 30 June	140,213	195,000

Any gains or losses arising from the remeasurement of the Group's unlisted equity investments held for strategic purpose are recognised in the fair value reserve (non-recycling) in other comprehensive income. Upon disposal of equity securities, the amount accumulated in other comprehensive income is transferred directly to retained earnings.
